

Are you **TRAVELING** to areas where **ZIKA, CHIKUNGUNYA and DENGUE** viruses are found?

People become infected with these viruses after being bitten by an infected mosquito.

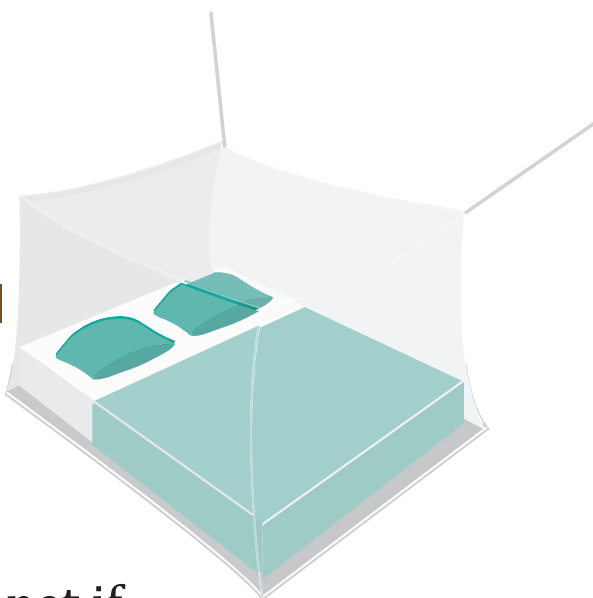

Protect yourself and your family from mosquito bites at all times, **day or night.**

- When outdoors, prevent mosquito bites by using an EPA-registered insect repellent that contains one of the following: DEET, picaridin, IR3535, or oil of lemon eucalyptus. Follow product instructions.

- Choose lodging with air conditioning or screens on windows and doors.
- Sleep under a mosquito bed net if you are outside or in a room that is not well screened.

- Cover Up. Wear long-sleeved shirts, long pants, and socks. For infants, place mosquito netting over infant carriers, cribs, and strollers.

Contact your healthcare provider immediately if you develop symptoms of Zika Virus: rash, fever, joint pain, red eyes.
